

Golf is not only proper technique; great vision is needed, to improve their tactics and the way is having a pro observing, analyzing during a game of golf. That's exactly what happens during our "Expert" program

Strategy and technique

During school, you will play two rounds of 18 holes under the watchful eye of a professional.

You will receive specific guidance on the field and tips to improve your game plan.

This practical approach makes it easier to remember what you learn.

The emphasis is on the strategic and tactical aspects such as management of the golf course and the choice of clubs.

When required or deemed useful for technical, practical tips and tricks to various parts of the game you will be given too.
